24-HOUR FOLDER

SHORT NOTICE?

We have your quick solution:
24-hour production time for this standard 4-color folder.

24-G TEMPLATE

9" x 12" Presentation Folder with two 4" glued pockets.

- Print 4-color process one side or two sides with overall gloss aqueous coating.
- Stock: 12 pt. C1S (4-color one side) or 12 pt. C2S (4-color both sides)
- Construction: 9" x 12" closed with 4" pockets and card slits on right pocket. Slits can be for a vertical or horizontal card.

TEMPLATE / ARTWORK: Artwork must be submitted using template 24-G. All artwork requirements must be met to qualify for 24-hour turnaround. By submitting your artwork and order online, you are instructing us to print your job as is.

| 24-HOUR FOLDER 4-COLOR PROCESS | | Quantity/Pricing | | | | | | | |
|-----------------------------------|---------|------------------|-------|-------|--------|--------|--------|--------|--------|
| | | 50 | 100 | 250 | 500 | 1000 | 1500 | 2000 | 2500 |
| Item # 24-G | 1 Side | \$458 | \$575 | \$742 | \$917 | \$1084 | \$1334 | \$1584 | \$1824 |
| | 2 Sides | \$742 | \$825 | \$992 | \$1159 | \$1492 | \$1917 | \$2167 | \$2459 |

To qualify for 24-hour production, COMPLETE ORDER FORM and PRINT READY ART FILE must be SUBMITTED ONLINE and received by 10 AM. Your order will ship the following business day.

SHORT RUN FOLDERS

When it comes to short-run folders...

Less is More!

Upscale finishes
on short runs for the
custom effect you want.

Choose from two finishes:

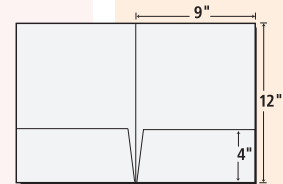

Gloss Lamination

An ultra-smooth coating that makes your folders glossy and durable.

Matte Lamination

Gives folders a luxurious matte finish feel.

- Print 4-color process one side (front & back covers and pockets) with your choice of coating.
- Stock: 12 pt. C1S
- Construction: 9x12 closed with 4" pockets and card slits on right pocket. Slits can be for a vertical or horizontal card.

9" x 12" Presentation Folder with two 4" glued pockets.

TEMPLATE/ARTWORK/PROOF: Same as 24 Hour Folder, and must be ordered online.

| SHORT RUN FOLDER 4-COLOR PROCESS | Quantity/Pricing | | | | | | | |
|-------------------------------------|------------------|-------|-------|-------|-------|-------|--------|--------|
| | 50 | 100 | 150 | 200 | 250 | 300 | 400 | 500 |
| Item # SR-1000 Gloss Lam | \$540 | \$656 | \$722 | \$789 | \$835 | \$896 | \$980 | \$1040 |
| Matte/ST Lam | \$623 | \$706 | \$755 | \$822 | \$872 | \$955 | \$1040 | \$1104 |

72 Hour Turnaround begins the first day COMPLETE ORDER FORM and PRINT READY ART FILE are SUBMITTED ONLINE and received by 10 AM. Your order will ship the 3rd business day.

Detailed artwork instructions and requirements are available online, as well as the downloadable template. This product must be ordered through our online shopping cart.

DOCUMENT FOLDER (Standard Stock)

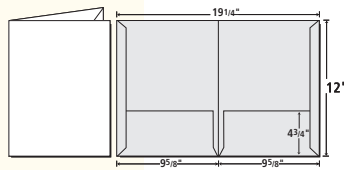

- C1S 12 pt. - White
- Opaque Smooth 80# Cover - White ●

These are some commonly used alternative styles to standard folders seen in the price list. Contact us to confirm price.

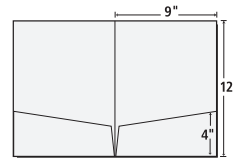

Standard Folder Variations

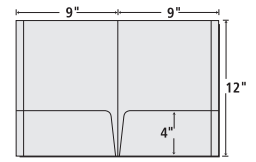

9" x 12" presentation folder with two 4" pockets and round corners on both front + back covers and also on pockets.

9-5/8" x 12" presentation folder with two 4-1/4" pockets and 1" reinforced sides (glued only to the exterior of the pockets for holding more material).

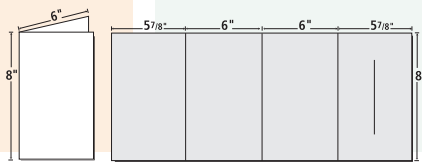

9" x 12" presentation folder with two 4" pockets, angle cut from outer edges down to center fold.

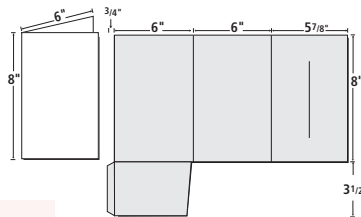

9" x 12" presentation folder with two 4" pockets and round corners on pockets only and glued reinforced sides (glued to pocket and above pockets).

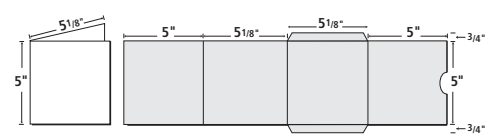

CD/DVD Folders

6" x 8" folded, 23-3/4" X 8" flat. Holds disc only. Optional spine. All panels can be printed.

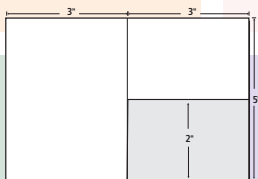

6" x 8" x 3-1/2" folded, 18-5/8" x 11-1/2" flat. Slit holds disc. Pocket at left side holds small sheets. Optional business card slits.

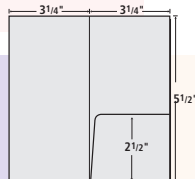

5-1/8" x 5" folded, 20-1/4" x 6-1/2" flat. Optional spine. Only holds CD/DVD.

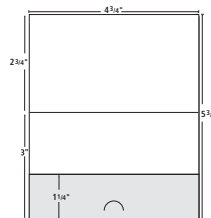

Small Card Holders

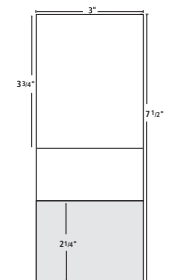

3" x 5" hotel key card packet with 2" tall sleeve pocket, glued at both sides with glue tabs to hold card and other material. Delivered open, 6" x 5".

3-1/4" x 5-1/2" hotel key holder with one 2-1/2" pocket with round corner. A die-cut slit is commonly used to hold key card. Delivered open, 6-1/2" x 5-1/2".

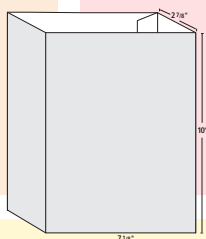

4-3/4" x 3" gift card holder with one 1-1/4" tall sleeve pocket, glued at both sides of card without glue tabs to keep card centered in pocket. Front cover is 2-3/4" tall and folds from top to show the 1/4" of the bottom of the pocket. Pocket has half-moon die-cut for the front cover to slide into and keep closed. Delivered open, 4-3/4" x 5-3/4".

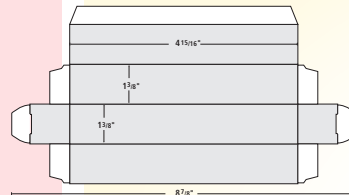

3" x 3-3/4" with 2-1/4" tall sleeve pocket, glued at both sides of card without glue tabs to keep card centered. Front cover folds down from top. Delivered open, 3" x 7-1/2".

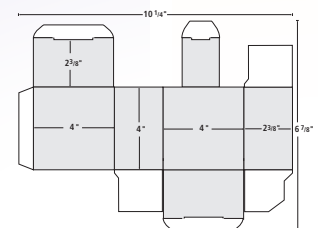

Boxes

7-1/8" x 10" x 2-7/8", open at top and bottom. Delivered flat, 10" x 10".

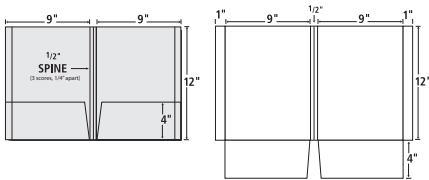

1-3/8" x 1-3/8" x 4-15/16" closed, extended flaps at top and bottom are die-cut to tuck and fold to close box. Delivered flat with flaps open, 8-7/8" x 2-3/4" + flaps.

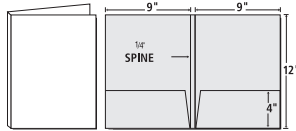

4" x 4" x 2-3/8" closed, extended flaps at sides are die-cut to close box with additional interlocking flap die-cut to keep shut. Delivered flat with flaps open, 6-7/8" x 10-1/4" + flaps.

We offer a large variety of folder styles not shown in the catalog. These examples are intended to show some of our capabilities. **NOTE: Die-cut slits for business card / disc, etc. are not shown on diagrams or templates as they are interchangeable and need to be specified on your order.**

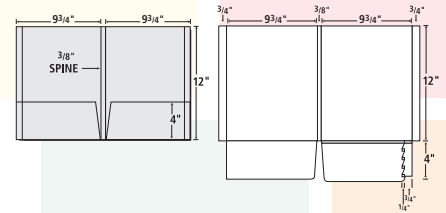

Capacity Spine with Flat Pockets

9" x 12" presentation folder with two 4" pockets, 1" reinforced edges and 1/2" spine with three scores 1/4" apart for flexible expansion.

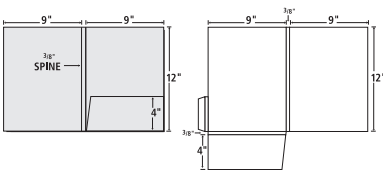

9" x 12" presentation folder with two 4" pockets and 1/4" spine (two scores).

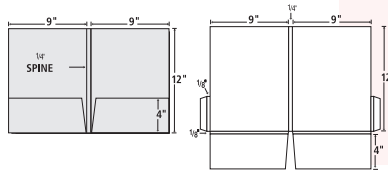

9-3/4" x 12" presentation folder with two 4" pockets with round corners and 3/4" reinforced edges and 3/8" spine (two scores). Left pocket is a standard flat pocket and right pocket is 1/4" expandable zipper-style pocket for flexible capacity.

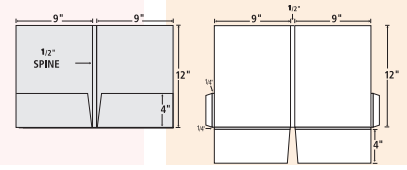

Capacity Spine with Rigid Box Pockets

9" x 12" presentation folder with one 4" box pocket at right side (3/8" deep to match 3/8" spine).

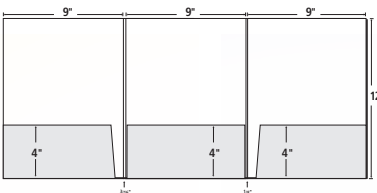

9" x 12" presentation folder with two 4" box pockets (each pocket 1/4" deep to match 1/2" spine).

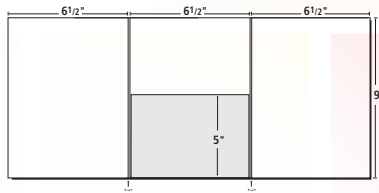

9" x 12" presentation folder with two 4" box pockets (each pocket 1/8" deep to match 1/4" spine).

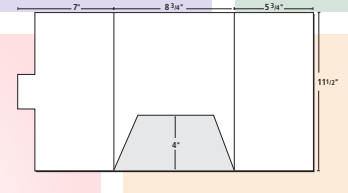

Tripanel Folders

9"x12" tri-panel, three 4" tall pockets (center pocket glued) and two capacity spines (1/8", 3/16") to lay flat when closed.

6-1/2" x 9-1/2" tri-panel, one 5" pocket at center panel, glued at both sides and two 1/8" capacity spines to lay flat when closed.

8-3/4" x 11-1/2" closed, center flap 4" tall, unglued. Left and right panels each 5-3/4" wide with front cover overlapping near the center. Extended die-cut rectangle on front panel for optional Velcro closure.

GENERAL INFORMATION

REQUIREMENTS FOR ARTWORK SUBMISSION:

1. Acceptable file formats are InDesign, QuarkXPress, Illustrator (.ai or .eps), PhotoShop, and PDF. PDF's must not be separated.
2. PDF files may be supplied, but **when possible, please provide native files, fonts, and linked pictures.**
3. All images and graphics placed or linked in the artwork must be sent. Color or grayscale images must be at least 300 dpi at final size. Line art or black and white images must be at least 1200 dpi at final size.
4. The document size must be the flat (unfolded) size of the folder to be ordered. All panels (front cover, back cover, etc.), pockets, flaps, etc. must be the correct size and must include **1/8" bleeds**. Folder specifications and downloadable **templates** are available at www.presentationfolder.com.
5. If possible, a color proof or previous sample should be sent with the folder order for all color jobs. A grayscale proof with clearly marked color breaks is also acceptable.
6. Multicolor artwork which uses any combination of inks, spot varnishes, spot UV coatings, foils, and embossing must be built to output correctly as spot colors.

PROOFS: Based upon the ink colors and operations being used on your job, we recommend different kinds of proofs. Shown below are the descriptions and costs for each type.

If you meet all of the requirements listed above in "**Requirements for Artwork Submission**", a proof is not mandatory, but is recommended to ensure your complete satisfaction with the finished product.

If you do not meet all of the requirements, a PFI representative will contact you to review what **charges will apply for a mandatory proof**. Additional pre-press charges may also apply depending on the complexity of the work needed to correct the files.

Recommended for 1, 2 or 3 Colors, or Foil or Embossing SpinJet proofs Cost: \$25 per color or operation.

A SpinJet proof is a low-cost proof that is **NOT Color Accurate**. They are intended to give only a general idea of the colors. You should reference a Pantone® Formula Guide or a foil chart to verify proper colors. **SpinJets are an accurate proof for margins, trimming and construction of your job.**

Recommended for 4-Color Process Epson proofs Cost: \$60 per side.

Epson proofs are **extremely color accurate for 4-color process jobs when they print on white coated stock**. They are not 100% accurate for all Pantone® colors or duotones. Please verify any Pantone® colors with a Pantone® Formula Guide. If you are printing on UNCOATED or COLORED papers, the colors of ink will appear less bright and somewhat darker than the proof.

Epson proofs are recommended over Emailed PDF proofs: In order to properly view a PDF proof, you must be using Acrobat 8 or higher or Adobe Reader 9 or higher. To obtain one of these products go to www.adobe.com. Although PDF proofs are fast and convenient, they cannot give you an accurate preview of how your colors will print. Differences in color settings on computer monitors and calibrations on printers make PDF proofs unreliable for color matching. **If your job has subject matter containing skin tones or colors needing accurate color matching, we strongly recommend an Epson proof.** If you opt to receive only a PDF proof, you may be asked to sign a waiver for color accuracy.

FILE TRANSFERS: Only ZIP, SIT and PDF files may be sent to us via the Internet. Files under 5MB may also be emailed.

FILES VIA DISC: If you are unable to send files electronically, we accept CDs and DVDs in PC and Mac formats. We prefer not to take flash drives.

SOLID BLACKS: Large areas of solid black on 4-color process jobs should be 50% Cyan, 40% Magenta, 40% Yellow, 100% Black.

HEAVY INK COVERAGE WITH SPOT COLORS: Large areas of solid or screened ink/s that have large amounts of ink require an extra charge. In addition, aqueous coating or lamination for sheet protection will also require an extra charge. Call for pricing.

AQUEOUS COATING: These coatings are available in a gloss, satin, matte or soft-touch finish, and are a clear protective coating on top of the ink that provides some protection against smearing and scuffing.

UV COATING: This coating is only available in a gloss finish that is much more glossy than aqueous or varnish. UV Coating provides protection against smearing and scuffing, but tends to show fingerprints on dark colors.

SPOT UV COATING: UV coating can also be applied to specific areas for enhancement. This requires you to create a file that indicates the area(s) you wish to apply the Spot UV Coating.

LAMINATION: This material is a layer of plastic adhered to the top of the printed sheet that provides the best protection. Available in gloss, matte, and soft-touch finishes and thicknesses from 1.5 mil to 10 mil.

PRODUCTION TIME: Standard orders will ship 3 to 5 working days after we receive approved artwork. Allow extra time for proofs, custom stock, custom dies, hand gluing, and heavy ink coverage jobs.

RUSH ORDERS: We welcome rush orders! Please call customer service for production schedule based on the complexity of your order.

CHANGES OR CANCELLATIONS: Changes to orders in process may require additional charges and/or time. Cancellations after an order is in process will require payment for actual work performed.

OVER RUN/UNDER RUNS: All orders are subject to a 10% over run or under run, however, we will only charge for the amount you need. If we produce more than the quantity ordered, it is your choice whether or not to purchase the over run.

WHAT IS 3-D UV COATING?

3-D UV coating is a polymer-based coating that takes traditional, transparent spot UV jobs to another level. Instead of a simple, flat, spot varnish, we use three-dimensional spot UV to give images a quality you can see and touch. This makes your printed products stand out from the rest and leave an lasting impression, and adds value to your product by engaging sight and touch like never before

Using this digital enhancement technology, the possibilities are endless, Raised UV can be used in conjunction with premium matte, soft-touch lamination, foil processes, die cutting, and much more to add to the final appeal of the product.

PRODUCTS AND APPLICATIONS

One of the newest and most effective ways to give your products that high-end, high-impact look and feel is through **digital Raised UV**.

The stunning visual effects produced by raised UV are not the only benefit it offers. It creates an experience with **unforgettable tactile effects** leave a lasting impression you can feel.

By engaging the senses with raised UV, you'll make a statement about the value you provide as a company and speak to the quality of the product inside your presentation packaging.

A great way to understand what raised UV can do to a printed piece is to **get it in your hands**, and the hands of your clients, so feel free to request a sample and let us show you!

Our high end finishes can be added to many common products **including**:

Business Cards
Presentation Folders
Brochures
Packaging
Boxes
DVD / CD Containers
Posters
Signs

Product Labels
